

Quick View – AMAMCO Tool

Service	Solution Provider – Innovation development to overcome standard tool failure, reduce wear, reduce cost, increase speeds, extend tool life.
Manufacturing	Manufacturer of solid carbide cutting tools. High process efficiencies are due to use of the most advanced and innovative CNC grinding machines. Operators and machinist craftsmen staff is headed by 10 certified, master tool grinders - average company tenure is 14 years.
Tool Type Specialties	Carbide Cutting tools: Drills, Reamers (spiral flute reamer, 3-stage reamer), Drill/Reamers, Routers (compression router), Endmills, etc.
Materials Concentration	Tested Tungsten Carbide, Specialty coatings
Applications	Advanced Composite, Titanium, Inconel, etc., all traditional metals (aluminum, steel, etc.) and any combination of stacking various materials
Industries Served	Including but not limited to: Aerospace, Military/Defense, Automotive, Marine, Medical Equipment, Injection Molding
Employees	70
Location	Duncan, South Carolina (upstate)
Markets	Global

AMAMCO Tool is a specialty tool solutions provider, offering custom manufacture of customer specified high-grade carbide cutting tools.

AMAMCO Tool is an ISO 9001:2000 and AS9100A registered company (non-specified dimensions and tolerances are produced to the PQ-3004 standard). Typically, the company produces a prototype, participates in regulated testing and then produces the tool in quantity for the end-user or contracted Type 1, Type 2 sub-contractors. AMAMCO Tool is an Alliance Partner with NCDMM (National Center for Defense Manufacturing), and has processed tool development, through testing and production for the projects of Boeing, Lockheed, Sikorsky and other major contractors (see attached lab reports). Additional significant growth has occurred as the company has been increasingly involved in determining the best practices of machining the latest in advanced materials.

AMAMCO Tool's products and management systems are continually tested to ensure that uncompromised quality standards are consistently met. A solutions provider company, serving both private and Government, DoD contractors, AMAMCO Tool's presence continues to grow in national and global markets.
